

CASH DOCTORS FEE STATEMENT

At Cash Doctors, we believe in making things perfectly clear.

Your first cash advance costs only 1 cent – it's just a tiny establishment fee.

After that, each time you take a cash advance of any amount, a \$45 fee applies. Then it's just \$30 a week for each week you have an outstanding balance. The maximum period we allow is 45 days as these are strictly short-term solutions.

Here's a breakdown of the fees you may pay when you get a cash advance.
